Department:

Auto Collision Repair

Course Description:

This course is the second in a four-course sequence covering all aspects of painting and refinishing auto body surfaces. The course will cover protective equipment, shop operations, and specific painting principles and procedures.

Course Competencies:

Upon completion of the course, the student should be able to:

1. Select proper personal protective equipment
2. Perform proper shop operations according to OSHA Guidelines
3. Remove paint coatings
4. Apply corrosion resistant coatings
5. Demonstrate proper spray gun operation and cleaning procedures
6. Select proper painting and substrate materials for projects
7. Identify paint defects, causes, and cures
8. Repair paint defects
9. Measure paint mil thickness
10. Determine final detail procedures for given projects

Course Content:

A. Personal Protective Equipment
B. Shop Operations and OSHA Guidelines
C. Paint Coatings
D. Corrosion Resistant Coatings
E. Spray Gun Operation and Cleaning
F. Painting and Substrate Materials
G. Paint Defects
H. Paint Mil
I. Final Detail Procedures for Projects

Learning Assessments:

Assessments may include quizzes, tests, project work, demonstrations, instructor observation, weekly assignments, and written papers.

Instructional Materials:

Guidelines for Requesting Accommodations Based on
Documented Disability or Medical Condition

It is the intention of Highland Community College to work toward full compliance with the Americans with Disabilities Act, to make instructional programs accessible to all people, and to provide reasonable accommodations according to the law.

Students should understand that it is their responsibility to self-identify their need(s) for accommodation and that they must provide current, comprehensive diagnosis of a specific disability or medical condition from a qualified professional in order to receive services. Documentation must include specific recommendations for accommodation(s). Documentation should be provided in a timely manner prior to or early in the semester so that the requested accommodation can be considered and, if warranted, arranged.

On-Campus Students: At enrollment, any on campus student may complete a form that will allow them to self-identify any disability.

Off-Campus Regional Students: Self-identify your disability and accommodation needs with the Regional Coordinator and/or instructor, preferably prior to the first class meeting.

Online Students: Self-identify your disability and accommodation needs by contacting the Disabilities Coordinator. Students must provide their own programs to allow accessibility on their home computer.

Any student may also identify their disability by completing an online form located on the HCC homepage under Students Services/Resources/Disabilities. Questions should be directed to the Disabilities Coordinator.
