Department:

Sociology

Course Description:

This course will examine the use and misuse of drugs and alcohol. The course will cover the biological and psychological effects of drug and alcohol use, the social and legal impact of substance abuse, and the challenges and issues faced by family members. Personal values and beliefs in regard to substance use and misuse, current trends, and methods of prevention, intervention, and recovery will also be examined in this course.

Course Competencies:

Upon completion of the course, the student should be able to:

1. Summarize past and current social policies and legislation related to substance use.
2. Describe the social impact of substance use on families, society, and the health care system.
3. Describe how contributing factors and influences, such as genetics, family, environment, and culture play a role in substance use.
4. Describe the use, abuse, and treatment of stimulants, depressants, narcotics, marijuana, opioids, inhalants, and hallucinogens.
5. Identify the Diagnostic and Statistical Manual of Mental Disorders, 5th Edition (DSM-5) criteria for substance abuse disorders.
6. Describe co-occurring mental health disorders and explain the risks associated with transient relief through substance use.
7. Describe and evaluate various prevention and recovery approaches.

Course Content:

A. Introduction to Substance Use
   1. Scope of the Problem
   2. Historical and Current Legislation and Perspectives
   3. Social Impact
B. Understanding Addiction
   1. Terminology
   2. Genetic Influences
   3. Environmental Influences
   4. Cultural Influences
   5. Co-dependency and Enabling
C. Chemical Dependency
   1. DSM-5 Criteria
   2. Co-Occurring Disorders
D. Substance Use, Abuse, and Treatment

Revision Date: 04/09/2014 - Page 1 of 2
1. Stimulants
2. Depressants
3. Narcotics
4. Marijuana
5. Opioids
6. Inhalants
7. Hallucinogens
E. Prevention and Relapse Models — Community Response

Learning Assessments:
Course competencies will be assessed by quizzes, written assignments, group work, oral reports, exams, research assignments, and reflection papers.

Instructional Materials:

Guidelines for Requesting Accommodations Based on Documented Disability or Medical Condition

It is the intention of Highland Community College to work toward full compliance with the Americans with Disabilities Act, to make instructional programs accessible to all people, and to provide reasonable accommodations according to the law.

Students should understand that it is their responsibility to self-identify their need(s) for accommodation and that they must provide current, comprehensive diagnosis of a specific disability or medical condition from a qualified professional in order to receive services. Documentation must include specific recommendations for accommodation(s). Documentation should be provided in a timely manner prior to or early in the semester so that the requested accommodation can be considered and, if warranted, arranged.

In order to begin the process all students must complete the “Disabilities Self-Identification Form” at this link: https://highlandcc.edu/pages/disability-services.

This form can also be accessed at the Highland Community College homepage under Students Services/Student Resources/Disability Service or by contacting the Disabilities Coordinator.
