

Course Completion Policy

All students are required to complete at least 80% of the assessment activities identified by the instructor by the certification date with an overall passing grade in the course. This date and list of activities is posted in the Are You Ready Section of each HCC Online/Moodle course. Any student failing to complete 80% of coursework listed and maintain an overall passing grade in the course by the certification date will be administratively dropped. The student will not receive a refund. Financial aid will be adjusted and repayment by student required if funds have already been disbursed.
