Associate in Science Degree
Pre-Forestry
Total Credits: 63

Department:

Pre-Professional

Program Description:

Pre-Forestry is a transfer program for students who plan to complete an associate in science degree at HCC and then transfer to another institution to pursue a bachelor’s degree. This program prepares students for study in a wide range of conservation areas, including the care, conservation, and economic aspects of forest resources. Forestry often focuses on production, wood utilization and technology, range management, pulp and paper production, and logging. Employment opportunities are usually found in federal, state, or county civil service agencies.

Suggested Courses:

Basic Skills (15 credits)
ENG 101  College English I
