Department:

Pre-Professional

Program Description:

Pre-Veterinary Medicine is a transfer program for students who plan to complete an associate in science degree at HCC and then transfer to another institution to pursue a bachelor’s degree. Students should also consult the program requirements and suggested courses of the veterinary school they plan to attend. Veterinarians diagnose, treat, control, and prevent diseases and injuries in animals. They advise on the feeding, care, and breeding of animals and may work in general practice or a specialty.
