

Department:

Agriculture

Program Description:

Agriculture Education is a transfer program for students pursuing a career teaching the basic principles of agriculture. This curriculum is suggested for those intending to complete an associate in arts degree at HCC and then transfer to another institution for a bachelor's degree. Agriculture educators offer classes that cover the information and skills needed in a variety of agriculture pursuits. Other career opportunities would include positions in county extension programs, federal or state agriculture administration, or agriculture finance.
